2008 DAWN IS GOLDEN

NEW YEAR BRINGS FUN, AUCTIONS AND CHANGE

The Market in Depth

Most dealers and collectors have enjoyed a successful and prosperous 2007 as the rare coin market showed exceptional strength of demand with high prices to match. As we ring in the new year, we see optimism similar to the beginning of last year. Much of this optimism is being fueled by Gold's ability to sustain and exceed the $800 per ounce level, closing the year at $835, representing a better than 30 percent gain from Jan '07. Platinum has been equally impressive, gaining more than 33 percent from a year ago, while Silver left its mark jumping 14 percent for the year. Intrinsically, all of the 90 percent Gold and Silver coins have increased in value, but there's much more to the story. Increasing precious metal prices have a way of creating more interest in the rare coin market and expanding its collector base. Political turmoil overseas, relatively high oil prices and a weak U.S. Dollar have combined to push Gold to its seventh consecutive annual gain. Precious metal strength has clearly been an important ingredient for the bull market in rare coins, and many are confident this strength will continue well into the new year.

The January 10-13 Florida United Numismatists convention and auctions in Orlando will be the initial major test for the 2008 market. Dealers we talked with have many well-heeled customers just waiting to buy select rarities. Savvy individuals are ready to spend top dollar for coins that receive the "Wow!" reaction. Competition in the Sunshine State is expected to be fierce, with aggressive Bidding for rarity and quality. Early coinage of all denominations will receive much attention as these coins are true scarcities, especially when found in premium quality condition. Generic coins that are PQ in addition to the tougher dates will be in demand as well, as they often lead to easy and satisfying sales.

Plenty lies ahead in the new year beginning with an auction blitz that will provide some welcome opportunities early on. Superior will begin the festivities when they host the Orlando 2008 Elite Coin Auction Jan 5-6. Stack's follows on Jan 7 with the Franklinton Collection Part 2 Sale. Bowers & Merena rings in the new year Jan 8 with their Orlando Rarities Sale. Heritage is in on the celebration too with the FUN 2008 Auction Jan 9-12. Many are curious to see how the CAC stickered coins will fare at these auctions, as well as throughout the upcoming year, since this material is now becoming more abundant. Several dealers have been offering to buy these coins **sight-unseen** at their sight-seen or higher Bid levels. Third party grading will certainly be closely watched as the year unfolds. Ownership and personnel changes are currently taking place within ANACS, ICG and PCI. PCGS has many within the industry wondering about possible changes as well after recently surveying its customers for feedback in regards to a number of issues, including: modification of the set registry, encapsulating problem coins and PQ identifiers.

This Week's Market

CENTS THRU HALVES: Copper maintains a healthy glow as sundry Lincolns from 1934-54 roll higher, especially those later Philadelphia issues! Within the 50 States Quarter program, one of the inaugural 1999 players, Georgia, is topping $20 for both entrants.

MERCURY DIMES: Mercs are starting off the new campaign without much hubbub, yet a concerted effort to reel in top notch Full Banded specimens and scarcer dates persists. As enthusiastic collectors patiently wait for want lists to be filled, the always in demand key dates cater to a waiting and paying audience in Circ through Gem.

WALKING LIBERTY HALVES: Walkers are sliding into the New Year with much of the buyers' envy still targeting virtually all members of the popular short-set in Choice and better. Early keys such as the 1919D and 1921 trio, as always, require considerable cash, a keen eye and a tussle to secure at auction or on the bourse.

DOLLARS: Morgans are out of the starting blocks with solid momentum. Scarce and rare dated specimens are cruising higher as the tougher New Orleans issue from 1889 claims a nifty triple Bid jump as MS66s top an impressive $14K. A cluster of action is also following a trio of entries from the popular 1892 release, as Carson City, New Orleans and Philly representatives motor ahead in Very Choice and Gem. Peace Dollars refuel on staunch demand, too, as a pair of semi-keys from Denver inch up the line in Gem, led by the 1927's $3,700 Bid.

PROOF SETS AND MINT SETS: Most Proof Sets are still getting the cold shoulder; the exception is the warm response for those from 1936-42, yet the popular 1999S Silver Set is being heard from as Bid advances to $240. Most Mint Sets appear to be at a standstill, perhaps poised for the January white sales.

COMMEMORATIVES: In most series it would not be viewed as a positive; yet with no dissenters in the Classic Silver Commem series, this sweet silence can most certainly be construed as a victory in this corner. Classic Gold remains robust as the miniature low mintage golden Americana are finding a bevy of buyers as the Pan-Pac Expo Dollars muster a modest advance in XF.

TYPE: Early Silver Type is on fire as much Draped & Capped Bust material is under the gun. Leading this calculating assault is the King of Type as Draped Bust, Small Eagle Halves are under siege in Circ through MS60. Flowing Hair Halves get caught in the fracas too as MS60 examples are under pressure capturing a $33K offer. Silver Proof Type is surging, as many knowledgeable buyers are raising the ante by over 10% in an attempt to reel in varied top tier Liberty Seated and Barber denominations from hiding. Not surprisingly, Gobrect Dollars are leading the bandwagon, storming ahead in PR63-PR65.

GOLD: The Golden Rocket has hit its afterburners as the yellow metal has soared some $40 since our last report to start off 2008. Of course the bullion dependent disciples are rallying on the jet stream, yet once again the much scarcer Gold Type in Very Choice and better are accelerating too. Take a look as the popular and tough to find properly graded Type II Dollars advance to $30K in MS65.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

I would like to bring your attention to the terrific assistance I was given by Dale Larsen during the sale of my extensive coin collection. Dale took the time to explain each factor that is used to determine a fair and reasonable value of my collection. Any question that I had was quickly answered by Dale. My experience with Spectrum has been very positive. I would not hesitate to recommend Spectrum Numismatics to anyone wishing to sell their collection. Thank you.

FUN SHOW KICKS OFF NEW YEAR
COUNTERFEIT NGC HOLDERS IDENTIFIED

The Market in Depth

Beginning the 2008 campaign, the Florida Numismatists' bellwether week is underway. This is one of the largest and most highly anticipated shows held each year. Activity is expected to be brisk, as well-known dealers and high-powered collectors will be in attendance, making for a who's who gathering of the rare coin culture. Currently, the market is quite strong, which should certainly be reflected in Florida. Some dealers and collectors could be described as cautiously optimistic. Cautious feelings are due to lingering doubts concerning how well our economy is able to manage problem areas such as higher gasoline prices and the housing crisis. On the flip side, optimistic feelings have come from the explosion in precious metal prices, primarily Gold, which is trading at record-breaking levels, and has lifted spirits and expectations tremendously. Increasing metal prices have clearly drawn much attention to coin collecting, bringing in new participants as well as inspiring the more experienced, both of which are great for business. This week can be described as an auction marathon, with several sales occurring in rapid succession. Dealers will be weighing their early January buying and selling options with regards to the recent changes involving ANACS, ICG and PCI. They will also be reviewing their inventories carefully to determine if any coins merit a CAC sticker. This review may expand to their long-time customers' holdings since stickered coins command much stronger Bids, with the added convenience and ease of a sight-unseen transaction.

Both dealers and collectors at the FUN show will be on the lookout for counterfeit NGC holders. The Numismatic Guaranty Corporation has just released diagnostic information used to identify the fake holders. Here's what to look for: several misspellings on the PNG portion of the holder's hologram sticker, where *numismatists, knowledge and integrity* are spelled *nunismatists, rnowledge and integrigy*. The bogus hologram itself also has less rounded corners, sits higher on the slap, and is more reflective than the genuine holder's hologram. Other differences are located on the label, where the counterfeit example uses a narrow font and square dashes. The **authentic** label has a wider font, and the dashes have angled ends. Also, the top of the counterfeit holder has a weld joint which looks like an off-center gap, while the real NGC holder has a continuous seem.

Superior's Orlando 2008 Elite Coin Auction is complete as more than $2.6 million change hands on January 5-6. Stack's Franklinton Collection Part 2 realized $7 million on January 7 in Orlando. We have listed a few of the many highlights from these auctions.

This Week's Market

MERCURY DIMES: Ms. Winged Liberty maintains a visible if not all that vocal following. Low to mid grade Circ material is attempting to slide under the radar, but much material continues to escalate.

WALKING LIBERTY HALVES: As many dealers and collectors converge on the warm sunny southern confines, Walkers are quietly strolling along with most of the visible buyers attempting to amass volumes of short-set examples in Choice through Gem.

DOLLARS: Morgans remain on the rampage as buyers raise the Bidding baton to higher levels for generic Circs to the always in demand DMPLS. Not surprisingly, the black-mirrored marvels are making the biggest ruckus as over 40 are thriving on a flurry of advances, the lion's share grading DMPL65. The scarcer 1897O is being courted in MS63, now topping $3,550, and the tough San Francisco key from 1904 raises the action to a mighty $7K in MS65. Peace Dollars retain a vigorous following too, as the not often seen 1923D in Gem takes home $945.

PROOF SETS AND MINT SETS: Still looking for a spark to ignite some action, a host of common, later dated Proof Sets are being jettisoned into the clearance bin. Perhaps the popular 1999S Silver issue will snap them out of it as it remains hot, topping a $250 Bid. Mint Sets are apparently not the flavor of the month with buyers either, as over a dozen ease back.

COMMEMORATIVES: Classic Silver appears to be back in cold storage as several easy to locate entries have been lowered in time to generate cash for some "FUN" buying. Yet those that have been deemed expendable and readily replaced in mid to high grade may also find many on the bourse looking to snag an eye appealing example or two at these more attractive levels. Classic Gold, on the other hand, is building up a head of steam as the majority of the 11-piece ensemble has ample support at or near current levels.

TYPE: As the dust settles from last report's bombardment, we observe that voracious buyers are still on the prowl for quality early Type in all metals in Circ through MS65. Properly graded Trade Dollars remain a tough act as buyers raise the Bidding bar for MS60 and MS63 offerings as the latter trades at $2,000. Proof Type is a whirlwind of demand too, with exceptional Bidding vigor for most Liberty Seated denominations grading PR63-PR65.

GOLD: As Gold trades near $880, it's easy to see why a swarm of new enthusiasts are catching a severe case of yellow fever. Buyer's are attempting to maintain a sufficient inventory yet are on the cautious side as Spot prices traverse this new record territory. Quality still commands attention and deep coffers. $3 Princesses are rallying with a nice triple Bid jump as Gems top $17K. Take a look as the next to unheard of $5 Indians in MS67 take no prisoners on the way to $60K. Interestingly, of the combined PCGS/NGC population of a paltry 23 reported, 13 achieving this illustrious grade are not the common 1909D, but the low mintage and very scarce 1908S.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a price between Bid and Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan but with the additional feature of deep mirror surfaces on both sides.

GOLD BREAKS $900 BARRIER
FUN AUCTIONS APPROACH $64 MILLION

The Market in Depth

Most dealers we spoke with at the FUN Show said the market is outperforming their expectations as we begin 2008. Some arrived in Florida feeling a bit doubtful considering the current uncertain economic climate. However, once the show was underway, the mood became much more assured as exceptional interest in rare coins became apparent. Demand was clearly strong in Orlando as wholesale and retail buyers operated in the auction rooms and on the bourse, searching for those special dates they need. Collectors had very specific requirements, moving from table to table in search of a select piece in a narrow grade range. Many remained steadfast while pursuing their needs, and money seemed to be no object once that gem was found, despite historically high price levels.

Dealers were encouraged as they happily observed a continued hot market for collector coins. One dealer told us he believes early Bust Dollars are strengthening further because of an increase he's been receiving in special orders for these coins in VF thru AU. Indian Head Cents, Lincoln Cents, Buffalo Nickels, Type coins, Gold of any variety or flavor as well as early material of all denominations were all very easily finding ready buyers at FUN. Gold led a strong charge as its price came tantalizingly close to $900 per ounce by mid show. It was obvious that the show was a beneficiary of the powerful metals market. One dealer said many at the convention were experiencing "precious metal euphoria." As of this writing, Gold briefly penetrated the $915 mark before settling at $902, adding fuel to the roaring fire. Silver is not to be ignored in this golden frenzy, as levels have reached highs not seen since 1981.

The 2008 January 9-12 Orlando Signature auction realized an incredible $50 million; just a few of the many highlights are listed below. This Heritage sale included 62 lots breaking six-figures, and 2 that crossed the million dollar threshold. Stack's featured six specimens grabbing over $100K, building up to $7 million realized. Bowers and Merena had a successful auction as well, averaging $6,374 per lot on the way to a $4.3 million sale, and Superior weighed in at $2.6 million, with 3 gems winning over $100K. All tallied up, FUN auctions approached a mighty $64 million. Such remarkable prices potentially have more than a short-term effect on the rare coin market. Collectors may very well be enticed to sell the material they've been holding onto for years, considering how much they can get for it today.

1907 $10 Indian, Rolled Edge	PCGS MS67	$460,000
1933 $10 Indian	PCGS MS65	$552,000

After such an active, week-long FUN Show, one might expect a time of rest and reflection, but not so. Dealers were off to New York for 3 days of Stack's auctions scheduled for January 14-16.

This Week's Market

CENTS THRU HALVES: Early Lincolns continue to bask in a warm glow as a heaping helping of advances is in place. The Silver Spot blitz is in full effect, mustering the bullion sensitive disciples as all are moving forward in unison. Georgia State Quarter rolls are higher, now at $21 placing them second in line to key status behind Tennessee.

MERCURY DIMES: Although still content to be on cruise control, Mercs retain staunch support as visible and viable buyers have left their mark. Yet as the majority of the keys and rare entries remain under pressure, dealers are in line looking to cultivate an early crop of quality examples for inventory

WALKING LIBERTY HALVES: Enthusiastic collectors seem to be gravitating towards this attractive series with more vigor. Whether their introduction was via the popular American Silver Eagle program or just appreciation for an early 20th century classic, Walkers have displayed some good legs.

DOLLARS: As Silver Spot drives to its highest level in decades, Silver Dollar fanciers are making the rounds, attempting to scoop up many of the easily acquired circulated cartwheels for a very small margin over their bullion value. High grade material is also on the upswing as everything from Very Choice to Superb Gems is on the rise in the Morgan ranks. Commoners in MS65 are now reflecting a $122 Bid, and DMPLs are more than keeping up appearances as they cater to another calculated uprising, with over 3 dozen charging up the ladder. Peace Dollars enlist much passion to the corps of devotees as well, as generic offerings in Gem climb to $140, and the tough MS66 designees claim $610.

PROOF SETS AND MINT SETS: Well, Proof Sets have finally broken the ice and are heating up in time for an early January thaw. A healthy smattering of advances visits a host of players with the accent on those popular and still attractively priced 90% Silver regular issues from 1955 through 1964. Mint Sets are picking up the baton as a trio marches higher with none giving up ground.

COMMEMORATIVES: The Silver Commem bargain bin may indeed be drying up, as support is strengthening, and no dissenters are heard from this report. Classic Gold continues on its merry way enveloping a swell of demand as the 11-piece ensemble basks in the warmth of continued buyers' acceptance.

TYPE: Although millions of dollars passed hands in a short time at the various Orlando venues, dealers still have yet to satisfy the insatiable itch for early Type. Strong prices are still ever present, attempting to pry some classics from various cabinets. One of the most collected 19th century coins, and the workhorse of finance, finds that the ever-popular Capped Bust Halves are topping $7,500 in MS65.

GOLD: In a triumphant charge, the yellow metal has vaulted over the $900 hurdle. Buyers, perhaps partially paralyzed, are carefully selecting examples for anxious collectors still unable to get their fill of the scrumptious golden delights. Of course at these levels volatility is a main concern, yet for the moment, cast your eyes on the wealth of advances targeting all the better Gold Type. Leading this momentous escapade, Type II Dollars exhibiting near numismatic perfection, power to an amazing $90K in MS67.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

In addition to its world-class conservation service, NCS provides comprehensive certification services for coins with irreversible detrimental surface conditions (commonly known as "problem" or "no-grade" coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine, or given a Detail's grade.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

NCS coins are approved to be listed as certified on eBay.

ALL ABOARD GOLDEN ROLLER COASTER
DEMAND STRONG FOR GENERICS THRU RARITIES

The Market in Depth

Last week, we were touting the major breakthrough for the yellow metal as it breached the $900 per ounce threshold on its way to a record high of $915. The exuberance from this increase was immediately experienced in Orlando at the Florida United Numismatists show and auctions as rare coins were in heavy demand, evidenced in large part by huge auction prices realized. During and following this time, world economic conditions and actions were setting the stage for significant volatility. Lower oil prices and a strengthening dollar vs. the euro were part of the equation. Overseas, stocks and metals crashed, prompting the U.S. Federal Reserve to hold an emergency meeting. Most expected the Fed to cut the interest rate by .5% at their regularly scheduled conference next week, but the early meeting, Tuesday, January 22, resulted in a shocking .75% slash. Such a significant reduction has not been seen in decades, and the results were quick and strong. Just a day ago, an overbought metals' market succumbed to some serious profit taking. In the process, it drove Gold down more than 6 percent below the $860 per ounce level. Gold and stocks have since made a significant recovery on the news of the rate cut, demonstrating clearly the usefulness of the term "roller coaster" in economics. In just a matter of days, Gold coasted from a peak of $915, to a valley of $855, and then back up to $890. Analysts are not all that surprised by the volatility in the metals, as many have predicted prices fluctuating between $50 and $100 during intra-day trading. Still, such radical changes are disconcerting to those collector/investors who became caught up in the excitement and stepped in and paid top levels for Gold. Dealers also find it troubling to place coins with buyers who may not be as willing to accept delivery. In such times, reneging does occur much more frequently than usual.

Stability is certainly in place throughout the vast majority of the rare coin market, and dealers remain encouraged that the momentum established in early January will continue. Money earmarked for rare coins remains phenomenal as serious collectors and other groups of buyers are looking to spend amazing amounts for key dates and classic rarities. Early material of all dates and denominations falls into this category. This demand is targeting attractive circulated examples as well as Uncs and Proofs. Type coins of all compositions are receiving exceptional demand as well. Early Copper, Silver and Gold coins from the Flowing Hair design through the Bust coinage are especially sought-after. These coins have been realizing strong prices realized at public auction and via private treatise. Many have already been taken off the market indefinitely, adding greater pressure to buyers looking to grab some that remain available. Bids remain very strong, and there are many buyers waiting in the wings hoping for an opportunity to add some to their collections. In addition, generic Morgan Dollars, considered by many to be a barometer of the overall health of the rare coin market, continue to strengthen week after week, bolstering confidence in an already very upbeat market.

This Week's Market

MERCURY DIMES: Merc mavens still appear to be content to leave their offers on auto pilot as they hope to quietly snare keys and Full Banded Gems at current levels. Although not a vocal crowd of late, the demand has been raised a few decibels. Scarce entries through the mid 1920s retain visible vitality, and the popular 1941/2 D overdate reveals Bidders have returned for these keys in MS64FB & MS65FB.

WALKING LIBERTY HALVES: Frosty blast white Walkers have always been a collector's favorite. Now as these lovely ladies court many new suitors, demand in particular for the short-set rages on. Building on last report's momentum, the scarcer 1944S rolls up another advance topping $420 in Gem.

DOLLARS: Morgans are hotter than a pistol as generic offerings in nearly all Mint State columns are under pressure and on the move. Gems are now claiming $127 Bid, and the attractive MS66 gang tops $260. A pair of popular Carson City cartwheels, namely 1881 and 1885, add some spice to the mix inching up in Very Choice. Over a dozen DMPLs don't disappoint their fans either as these conditional rarities reflect ongoing admiration and aggressively higher Bids. Peace Dollars command buyers' respect too as the ensemble displays solid demand on all fronts.

PROOF SETS AND MINT SETS: Proof Sets continue to mend broken fences, and as the Spot Silver show hovers at higher levels, the 1961-64 regular issues are veritable bargains at current Bid. Mint Sets second the motion as buyers are lurking at or a bit back of Bid for many here.

COMMEMORATIVES: As this diverse numismatic market has made considerable tracks in other areas, classic Silver Commems haven't exactly been setting the world on fire. Yet over the last several weeks, we note that a series which had been on virtual life support has finally stabilized. A warming trend spotted buyers casually returning at first, now with a bit more urgency as evidenced by heightened visible support. The Classic Gold counterparts are busily building their persuasive case too, as the diminutive golden marvels as well as the massive and rare Pan-Pac slugs embrace buyers' vigorous vigil.

TYPE: As time goes by and dealers' inventories become sparse, more and more of the truly scarce Type coins are getting their due. Buyers tired of jousting on the bourse are hoping that some fresh advances will spring much needed collector coins from hiding. Flexing considerable muscle, the popular Large Capped Bust Quarters muster action as MS64s roll to $9,000, and Gems power to $18K. With a hardy PCGS/NGC population of 110 MS65s, a few should be coaxed out into the open. The elegant and rare Flowing Hair Halves continue to spark excitement as tough to find problem-free AUs march to $16,500.

GOLD: World events and the Fed's interaction have left the Gold sector even more volatile (if that's possible). Yet off its all-time highs, the yellow metal's passionate following is still in hot pursuit. As a matter of fact, Gold Type in the top grade tiers is flourishing as rare Type II Dollars surge to $31,500 in MS65, and the again popular $3 Princesses are cavorting in Gem to the tune of $17,500.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high Bidder, but will post changes that are higher or Bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls

ALL-TIME HIGHS FOR PLATINUM AND GOLD
GRADING SERVICES CLAMP DOWN ON COIN DOCTORS

The Market in Depth

The rare coin market has certainly been both exciting and extremely active recently, with many rare and valuable coins changing hands at extraordinary levels. Whether it's Type, early material, key dates or Gold, the number of coins outstanding on want lists is just another indication that this demand is real and doesn't look to disappear anytime soon. One very important reason for the current powerful demand is the remarkable rising value of precious metals. As is often the case, volatility has accompanied the metals' ultimate upward trends, exacerbated, or possibly caused, by world economic events and fears of a recession at home. Many expect this trend to continue as Gold, Silver and Platinum reach higher per ounce price levels. Gold and Platinum are currently at all-time highs at $927 and $1,729 per ounce, respectively, and Silver is at a mighty 27-year high at $16.75. While it is very clear that these metals are in a bullish cycle, analysts expect more violent swings both up and down going forward.

Expectations are on the rise for a strong, active February, which is usually a rather busy month. Many dealers are already in St. Louis to attend the Midwest Winter Sale by Scotsman, Feb. 8, and the Greater American Coin Fair. Some of the featured specimens include a 1937D 3-Legged Buffalo Nickel, graded MS64 by NGC; an 1827 Capped Bust Dime, NGC MS65; and an 1895 Morgan Dollar Cameo, NGC PR66. Some of the better Gold offerings include a 1909D $5 Indian, graded by PCGS as MS65, and a 1925S $20 Saint, NGC MS62. Dealers will no doubt be chasing after such select rarities as they continue to beef up their lean inventories and rare coin shortfalls. Though a few dealers remain cautious about a possible recession, which may cause demand to weaken from a portion of the market, many believe that for the well-heeled collectors, it will be business as usual. Activity in Missouri will surely provide valuable insight into the health of the rare coin market, as will the Long Beach Expo and auctions, scheduled for February 14-16.

NGC announced its new policy regarding the submission of doctored coins, Monday, Jan. 28. As a reaction to recent, significant increases in the amount of fraudulent material submitted to the grading service, the rule changes, fundamentally, hold the dealer who submits a coin determined to be doctored responsible for the offense. A warning letter on the first infraction, a 90-day suspension on the second, and a possible permanent termination of membership after a third comprise the "three strikes" policy. In order to avoid getting punished themselves, dealers now have more reason than ever to refuse sending in coins at the behest of known doctors. Of course, there is concern that the policy may result in some dealers becoming gun-shy about submitting coins to NGC, but most professional numismatists know how to protect themselves and avoid trouble in this regard. PCGS issued a press release the same day reiterating their current policy regarding doctored coins, with particular focus on the fact that doctoring a coin is a violation of U.S. federal laws and can result in fines, imprisonment or both under Title 18, Section 331 of the U.S. Code.

This Week's Market

CENTS THRU HALVES: All bullion sensitive denominations are receiving a flurry of action, fluttering higher on the jet stream of the Silver express. Other areas maintain strength too, as early Lincoln and Jefferson rolls reveal a bevy of eager buyers and select Washington Quarters from the 40s and 50s rise to the occasion.

MERCURY DIMES: For the most part Ms. Winged Liberty features a passionate and patient audience Dealers remain on the prowl though, waiting for opportunities to pounce on the keys across the grading gamut. Frosty white Full Banded wonders are still coveted too, and required in quantity remaining front and center on buyers' want lists.

WALKING LIBERTY HALVES: Now as new collectors are getting acquainted with the virtues and desirability of true collector coins, this lovely lady's list of admirers is growing. Although Walker's most noticeable support is continuing to rally around the short-set, ardent aficionados maintain a vigorous vigil as they attempt to snare early rarities such as the 1919 and 1921 trios in any collectable grade

DOLLARS: As Silver Spot aggressively muscles up, Morgans are again wrestling with marked enthusiasm. Several scarcer issues in the collector friendly and perhaps undervalued $500 or less categories are caught in the Bidding fracas, moving up a notch primarily in Choice and better. The conditional rarity DMPLs continue to mirror Bidding frenzy too. Peace Dollars also make a forceful stand as select MS63 and MS64 issues are pulling ahead by as much as 10%.

PROOF SETS AND MINT SETS: As many buyers are hovering a bit behind Bid for most Proof Sets, the support factor which was invisible of late is beginning to make a comeback. Certainly as the white metal surges, those prime candidates such as the 1961 inching to $11.50 and the 1964 to $11 may ignite a little more action. Mint Sets carefully maintain the status quo, yet the 1962-64 Silver issues represent an excellent value at current Bid.

COMMEMORATIVES: Classic Silver Commems are in a holding pattern once again waiting to land some increased offers on the Bidding runway. Classic Gold sports a little more excitement. Pan-Pac Dollars work their way to $1,550 in Gem, and in the same grade, 1916 McKinley Memorial Dollars top $1,500.

TYPE: This is the hot spot as everyone is trying to get tickets to the big game. Some super Bid increases are attempting to bowl over the competition as Braided Hair Large Cents in full Red MS65 face a buyer's blitz with a 15% advance powering them to $3K. Capped Bust Quarters roll as the Large variety tops $19K in Gem and the Smaller variation pounds ahead in MS63-MS65 as the latter scores $15,000. Reeded Edge Capped Bust Halves get some respect from the sidelines as Gems scamper to $13K It's heads and tails with Trade Dollars as MS65s rally to $9K while PR65s mirror deep desire topping $8,200.

GOLD: As the Golden rocket throttles to historic levels, most Gold Type is soaring higher. Once again fueled on this zealous ride, commoners and elite passengers command a watchful eye. Scarce, problem-free Gold Type in Gem is extremely hot, yet the rare $10 Libs with No Motto are especially fired up as MS60-MS64 examples are hitting the afterburners as the latter races to $24,500.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the Levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be [illegible] by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay [illegible] above Ask when purchasing coins in a retail transaction you may also commission a Dealer for your purchases

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem full bands" rolls are worth more than listed prices—particularly the pre–1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S–mint issues) are worth more than listed prices. MS–65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

HUGE DEMAND FOR HIGH-PRICED RARITIES
LONG BEACH HOLDS MUCH PROMISE

The Market in Depth

These are exciting times in the rare coin market. Many dealers we correspond with on a regular basis are amazed at the strength of demand for such a wide, diverse group of coins. Early coinage may be among the hottest areas today. The aggressive and higher Bids being placed for this material are appearing more frequently and with greater percentage increases than can be believed. Rarity and quality remain primary objectives for these buyers as such coins deemed above average for the grade are being hotly pursued with big bucks chasing after them. Specifically, dealers are looking to buy those time tested rarities that seem to always be in vogue. Flowing Hair coinage, our first major design Type, is highly sought-after because of its rarity and first year of issue status. Finding these coins is not an easy task. Most serious collectors and dealers have their eyes carefully peeled at public auctions for an opportunity to add some of these beauties to their inventories, collections or to place with a customer.

Strength for rare coins is evident from the least to the most expensive examples. Circulated 1909 Indian Cents are thriving at $12.75 in Good, while common date Morgans in Gem are Bid at a solid $127, and Early Bust material is flourishing in the six-figure range. As for the big-time, million dollar plus specimens, a remarkably robust market segment is found. In fact, record setting prices for the major rarities that come down the pike have not slowed at all. On January 28, John Albanese, a coin dealer from Far Hills, New Jersey, purchased, for a client, a PCGS AU53 1870S Liberty Seated Dollar, from Stanford Coins & Bullion of Houston, for $1.3 million. One of only 11 known, this treasure has the added distinction of being from the Eliasberg collection. Amazingly, it has become commonplace for million dollar coins to change hands, now more than ever. One important reason collector/investors are particularly prone to making such huge purchases is to prevent their cash from languishing in banks. The extraordinarily low interest rates make high value coins a much more attractive investment. Since the Federal Reserve Bank has lowered the rate twice this year, non-interest bearing assets such as high priced coins are very attractive, especially to those with a love for coins in the first place.

The full spectrum of coins, from Early Flowing Hair, to Circulated Copper, to generic Morgans, to multi-million dollar rarities is clearly in demand. What more could a dealer ask for? Multiple opportunities for acquisitions of all kinds are coming up as busy February kicks in. Superior and Goldberg will host Pre-Long Beach sales in Beverly Hills, California. Ira & Larry Goldberg's auction will take place Feb. 10-13, while Superior's Elite sale will be Feb. 11-12. The official Heritage Long Beach auction is scheduled Feb. 13-16. Dealer set-up for the coin show is Feb. 13. Understandably, expectations for these auctions and the Long Beach Expo are high, and quality coins are expected to receive exceptional prices.

This Week's Market

MERCURY DIMES: Mercs are still under pressure as sundry scarcer dated examples continue to muscle up in Circ. A bit more life is courting several of the better Full Banded entries as the 1919D and 1926S remain welcome additions to inventories and want lists.

WALKING LIBERTY HALVES: Walkers are the last and certainly amongst the most attractive of those classical allegorical renderings that brought American numismatics designs to the forefront. Flocks of collectors agree and are still racing in to scoop up various late dates in Gem as MS65 representatives claim $125 Bid.

DOLLARS: A winter's storm warning is in effect as Morgans are in the middle of a blizzard of activity. Over 70 grading a full MS65 are causing an avalanche of action as calculating buyers slalom in. Everything from slightly better dates to the king of the cartwheels, 1893S, is plowing ahead by as much as 20% as the latter powers to $400K. Peace Dollars, though not a ball of fire, are not hibernating either as visible support reveals motivated buyers still shadowing them in queue.

PROOF SETS AND MINT SETS: Certainly not everyone's sweetheart, Proof Sets are finding a few more suitors, especially as Silver Spot's ascent makes for an attractive union. Obliging is the 1964 issue topping $11.50, and the popular 1999S Silver Set, rolling to a $265 offer. Although Mint Sets appear quiet, visible support is found with most at current levels.

COMMEMORATIVES: Classic Silver Commems are not yet bubbling with increased activity, yet fewer of these low mintage Americana are finding willing candidates to delegate to the oft frequented bargain bin. Attempting to facilitate a comeback, Booker T. Washington and Washington Carver Sets are climbing up a notch in Circ. Conversely, the Classic Gold ensemble is still shimmering with respect as the key to the 11-piece contingent, the 1905 Lewis & Clark, travels up to higher ground as Gems explore a commanding $15,200.

TYPE: Liberty Seated Dollars With Motto take center stage within the Type delegation as the spotlight is trained on MS65 specimens with Bid rocketing over 65% to an enormous $40K. At first glance, this may seem a tad extreme when compared to the No Motto Dollars in Gem, yet a quick recap of the population of PCGS/NGC players indicates 57 With Mottos and nearly double that community for No Mottos. Again, homework pays dividends. The diminutive yet ever-popular Half Dimes are packing a punch too, as buyers are looking to snag as many of these in MS65 as possible prior to the Long Beach festivities. Capped Bust examples are topping $2,625, and Liberty Seated No Stars jump to $2,835. Proof Type maintains the watchful Bidding eye as most dealers' offers are hovering around current Bid.

GOLD: The yellow metal is still raising havoc and eyebrows as the utterance of a four letter word has perhaps never been this popular. Although Gold Spot has eased back slightly from its record perch, top end Gold Type rages on. The evidence speaks for itself: Type II Dollars stake claim at $9,700 in MS63, Liberty Quarter Eagles take flight to nest at $1,425 in MS64; and topping off this golden enchantment $3 Princesses cope with admirers as Gems cradle $18,000.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be promptly informed for those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above. And when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

Single copy price $4.00 Vol. XLVI No. 7 **February 15, 2008** *. . .a Friday morning report on the Coin Market*

SUPPLIES DWINDLE ACROSS-THE-BOARD
DEMAND FLYING HIGH IN CALIFORNIA

The Market in Depth

As we plow through February, demand for rare coins has continued at a superior level. Dealers are routinely increasing their wide-spread buy offers in hopes of bringing some fresh material to market. It's easy to forget that the examples which have been in such high demand are so limited in number. With such a relatively fixed supply, the fact that prices continue to head higher is quite understandable. Healthy auction results, like the $1.3 million, one-day Midwest Winter Sale by Scotsman, held Friday, Feb. 8, are further testament to the current, robust state of the market. In addition to rarity, what other factor is contributing to this, possibly unprecedented prosperity? The power of precious metals. Metals have had a huge influence on maintaining, and in many cases directly increasing the value of rare coins, and analysts continue their bullish outlook for 2008, which bodes extremely well for ongoing success.

Platinum, Gold and Silver have indeed been rocketing higher. Platinum is the real star, as this industrial metal continues to hit new, all-time highs, currently at $1,934. Gold is just above $920 per ounce and not that far from its peak of $933, which comes as a rebound from last week's Spot of $886. Silver is trading at levels not seen in over a quarter of a century. This precious metal is sitting pretty, near $17.50 per ounce, and its volatility has resulted in a less forgiving attitude regarding the sale of *junk* Silver Bags. While $1,000 face value used to be good enough, now some dealers are demanding a more strict measurement, rejecting bags weighing in at less than 795 ounces. Though often ignored, Palladium is also performing near a seven-year high, currently trading for over $440 per ounce.

All this metal madness is certainly bullish for the Long Beach Expo and Heritage auction, scheduled for Feb. 13-16. Ira and Larry Goldberg's Coin and Currency Sale, featuring the Dr. Hesselgesser and Dr. Haywood collections, is currently in progress in Beverly Hills, as we go to press. Also taking place is Superior's Elite Coin Auction, which features a collection of Proof Bust and Seated Dimes, all in old, original holders. In addition to these Pre-Long Beach sales, many dealers are holding their own mini-bourses at hotels in the immediate area. Such activity serves to satisfy the seemingly insatiable demand from those dealers purchasing wholesale in optimistic preparation for sales to follow at the Expo. The remarkable amount of business taking place well before the show officially begins demonstrates quite clearly how strong this current coin market really is, and how important it is for many dealers to get first crack at the best material available. Though being an extra early bird requires much more time and effort, there is no shortage of competition for the worm. Excitement and high hopes are palpable as dealers and collectors alike converge on Southern California for the popular exposition and important sales. Battles for select specimens are expected to be fierce, and buyers know that the prices paid will likely be in the top range.

This Week's Market

CENTS THRU HALVES: Early Lincoln rolls remain on fire as a slew reveal moderate advances. Of course with Spot Silver surging ever closer to a new bench mark, all of the bullion sensitive issues are moving higher. State Quarters deliver new interest and advances for the popular 1999P-D Georgia rolls, now at $22.50 Bid.

MERCURY DIMES: Fans of Ms. Winged Liberty are still clamoring for most representatives within this popular series. Buyers are highly visible and perhaps a little more motivated as the key 1921D rises in MS63 and MS64 as do mintmarked '28s, each inching up a notch in like grades.

WALKING LIBERTY HALVES: Dealers are still aggressively pursuing virtually all issues from the 1930s on as the tougher 1935D moves up in Choice and Very Choice. The latter may appear to be great value when considering it will cost 6 times the MS64 Bid of $325 to secure a full MS65.

DOLLARS: As Spot Silver sails over $17, Morgans are as desirable as ever. All the recent gains are intact and we note a marked increase of buyers prowling for many in the elusive and pricier MS66 designation. DMPLs continue to make buyers' hearts skip a beat as over 3 dozen of these conditional rarities pound out advances. Peace Dollars are riding on a wave of approval this report as anxious buyers place higher Bids on virtually the entire series in Gem.

PROOF SETS AND MINT SETS: Early Proof Sets still have a date with buyers at present levels, yet as Silver performs the extended version of the happy dance, Bidders are trying for some of the action by nudging up a few of those forgotten 90% Silver issues. Mint Sets appear to be sitting this one out as only a pair of late entries inch higher.

COMMEMORATIVES: Classic Silver Commems are coming up short as over a dozen are saddled with minor losses as dealers attempt to generate quick cash to help finance west coast purchases. Gold Commems remain vibrant as visible demand is widening. Pan-Pac slugs are on the move as the Round version is taking down a $69K offer in Choice while the Octagonal brother tops $78,500 in MS64.

TYPE: Not only are the early Silver issues thriving in Circ through Gem we also find Braided Hair Large Cents on the Type de jour menu, rolling to $3,300 in MS65R. Proof Type is equally vexing to dealers, as a whirlwind of advances ascends on nearly all Seated and Barber denominations. Morgan, Trade, and Gobrecht Dollars are topping the Proof buyers blitz.

GOLD: As the yellow metal maintains residence in the $920 range the more bullion dependant are rising in unison. Some better Gold Type may have finally reached a saturation point with buyers' as several MS63 and MS64 examples are rolling back a mite to more comfortable levels. MS65 players are still strong though, as the very tough No Motto $5 Libs are being chased by a $1,100 advance as Gems now boast $27,200.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

LONG BEACH AUCTIONS EXCEED $35 MILLION
EXPLOSION OF HIGHER BIDS

The Market in Depth

Most dealers had extremely high expectations for the first Long Beach Expo of 2008. Such optimism is understandable considering how hot the market has been. Indeed, the majority of dealers we spoke with did have a very successful show. One of the many reasons for this success was the continued bull market for precious metals. Platinum reached an all-time high of $2,105 per ounce during the convention, and has since broken that record at its current Spot of $2,153. Gold, up a remarkable $175 per ounce from the last Long Beach gathering, helped boost overall enthusiasm as well as prices for Gold Type material. Like Platinum, Gold has risen since Long Beach, and is now at $927. Silver has followed suit, climbing higher from just over $17 per ounce during the expo, to $17.49.

Buyers of high quality and scarce to rare specimens seem to be facing an ever-smaller pool of available material, and thus prices continue to move higher. Higher prices tend to force the good stuff out of hiding, which was the case with the phenomenal Husak amassment of 301 rare U.S. Large Cents. This standing room only auction event held in Long Beach brought longtime collector Walter Husak, a resident of Burbank, California, $10.7 million for his Copper coins. Such an amazing sale is quite rare, occurring once, maybe twice in a lifetime. Auctions continue to attract better material, and the prices realized for many of these coins are a testament to the strong demand in the current market. Huge auction prices are also an indicator of the new breed of collectors out there today. Unlike the more experienced collectors, these newbies are willing to pay much more at auction than they would by buying directly from a dealer. Of course, this applies to that which is available downstairs on the bourse, like the 1907 $20 Saint, High Relief, Flat Rim graded MS66 by PCGS, selling at auction for $115,000. One dealer we spoke with said he had fundamentally the same coin for sale at $85K, and after an initial rejection from a potential customer, the sale was promptly made after the much higher auction price was reported.

With the Goldberg auction at nearly $10 million, Superior bringing in $1.9 million, and Heritage with over $23.6 million, the Long Beach related sales totaled well over $35 million. We have listed a few of the many highlights from the Heritage sale, including, of course, several examples from the Husak collection.

This Week's Market

MERCURY DIMES: Now, as many more enthusiasts are entering the fray, buyers are finding it necessary to step up the action. This report, some tougher hombres displaying full strikes are on the move as the 1920S, 1921 and 1923S each feel the heat and are bouncing up in MS65FB.

WALKING LIBERTY HALVES: Discriminating buyers of quality are paying a visit to the Walking Liberty camp with increased Bids. Key early entries are getting the wake-up call this time around. Leading the action is the revered 1921S as MS64s claim $40K, and the elite MS65s grapple with a solid volley to $85K Bid. For the latter, the PCGS/NGC tally reveals her true rarity: 35 in Gem and only 2 higher.

DOLLARS: As Silver Spot careens ahead on the express lane, these majestic cartwheels are hotter than a pistol on the firing range. Apparently not getting the desired results from the recent Bidding assault, both Morgan and Peace factions are deploying decisive action. Both popular series are streaking ahead in MS65-MS66 under a new intense and calculating Bidding barrage.

PROOF SETS AND MINT SETS: No dealer delirium here, yet an attentive eye is keeping watch on many of the 90% Silver Proof issues. Certainly at present levels and Silver Spot's current neighborhood, there is very little risk. Mint Sets retain positive flavor for key early issues, yet several later entries are dritting back waiting on callers.

COMMEMORATIVES: Although still a bit chilly, Classic Silver Commems are finally invoking some dealer interest. Take a look: none are dissenting and a pair is on the upswing in Gem and better. The tough to find properly graded, 1926 Sesquicentennial propels to $3,300 in MS65, and the popular Texas Type rides home to $300 in MS66. Classic Gold is dazzling us with her footwork as each player within the complete ensemble is a paradigm of support. That's right. All are advancing as the spirited frenzy converges around these low mintage golden jewels grading Very Choice and better.

TYPE: Once again, Type remains a heated battleground as every sector is under intense fire. Exhausted buyers are in a quagmire. Unable to make hay on the West Coast junket, they are attempting to cash in on last week's escalations with another all-inclusive Bidding salvo. Popular one year Type Draped Bust Quarters of 1796 are flexing muscle as Circ examples get a solid boost with AUs marching home at $43,500. 1793 Chain Cents are linked to a solid showing too, in Circ as the Uncs roll to $95K reflecting a nearly 30% push. Proof Type is retaliating in a decisive way, as most of last week's movers are shaking up the page with an encore. Additional forces are also rallying as Matte Proof Lincolns in all color combos are on the rise, as are high-end Two Cent Pieces.

GOLD: As the golden metro rides above $925, discerning buyers are still out in force. Although demand remains across-the-board for significant quantities of low-grade material, the desire for those scarcer Gold Type in problem free MS65 continues to outshine others. The upward trek chronicles several in Gem as the ever-popular $5 Indians send signals up to $17,500. Of course some profit taking is occurring in MS62-MS64 as several issues have softened a bit.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning) but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

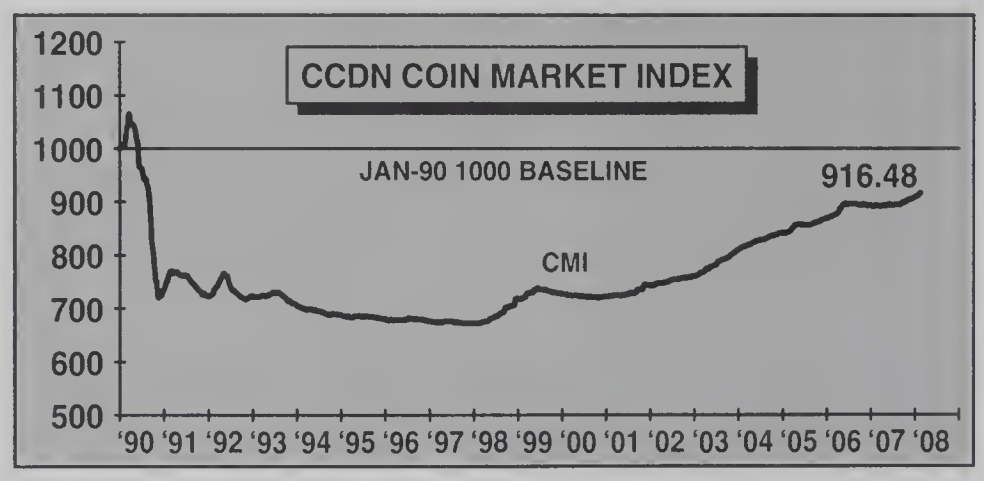
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer to Dealer Bids

The ***Certified Coin Dealer newsletter ("Bluesheet")***, published by the Coin Dealer Newsletter (est. 1963), is the **only** price guide available listing the wholesale Bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, PCI, ICG, SEGS and other independent grading services. Published weekly, the ***"Bluesheet"*** reports the highest known sight-unseen Bids on actively traded certified coins in the standard grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the leading services. Bids for PCGS and NGC are reported every week; Bids for other services are updated monthly. And once each month the **CCDn** also contains Market listings - at no extra charge!

Over the past twenty years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable price movements, attracting a new generation of collectors. As our **CCDn CMI** (a weekly ***Bluesheet*** feature) illustrates, the overall market is **moving higher**. In addition to pricing changes in the market, Bid levels may differ considerably from one service to another.



The ***Bluesheet*** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the ***Bluesheet*** now!

HI-HO SILVER!

BALTIMORE BEGINS — ANA UP NEXT

The Market in Depth

Auctions are quickly becoming the best forum for buying and selling rare coins. The exposure of one's coins via the internet allows potential buyers to view and study these rarities in detail. Buyers certainly benefit further in terms of availability as auctions often have material local coin shops would never get a hold of. Sellers, for the most part, are also doing quite well using the auction venue to move material. New collectors with deep pockets are paying huge prices for treasures, often being stricken with "auction fever" and raising Bids well after more seasoned numismatists have dropped out. Successful Bidders do have the assurance that at least one person was willing to pay one increment below them, though this is a very short-lived condition, and not necessarily indicative of the true value of their coin. In other words, trying to sell the same coin in the future at the level just below the winning Bid may prove very difficult. Meanwhile, the seller makes out like a bandit in a market of such incredible demand, especially for those coins that are **original** and **attractive** for the grade. The pickings are slim for this material, and thus the competition is fierce. Sellers seem to be in the driver's seat today, as buyers are highly motivated by precious metal strength. Gold and Platinum continue trading at all-time highs, and Silver is near an incredible $19 per ounce. Silver's effect on the market is widespread as seen in higher Bids for: Rolls, Dollars, Junk Bags, Sets and just about anything else containing Silver. Clearly, the bullion run is keeping the rare coin market alive and well.

Activity will first head to the East Coast as Maryland auctions begin the festivities just prior to the Baltimore Coin & Currency Convention, scheduled for February 28 to March 2. The Stack's Rich Uhrich sale, February 26-27, is still in progress as this is being written. The February 28 through March 1 2008 Baltimore Auction by Bowers and Merena follows. Next up is the ANA National Money Show in Phoenix, Arizona, March 7-9, with auctions by Heritage, March 7-8.

Early coinage of all dates and denominations falls into the must-have category. This trend has developed over the past few years, and continues today. These coins are truly the rarities that most knowledgeable dealers and collectors have been putting away as fast as they could during the current Bull market. Type collectors covet these beauties, especially the 1- and 2-year Type issues. Unfortunately, many have already been removed from the marketplace, and put into collections, so it will take strong Bids to secure those few available specimens. Will Baltimore, MD be just what the doctor ordered, or will success be found in Phoenix, AZ? Judging by today's hot market, both stand to be very successful conventions.

PCI is now under new ownership after the grading company was sold at auction last week. John Feigenbaum, president of David Lawrence Rare Coins, made the acquisition, and will move the company from Georgia to Virginia. In an open letter announcing the purchase, Feigenbaum stressed that, regarding grading, the new PCI "...will be much tougher on submissions than the 'old' PCI."

This Week's Market

CENTS THRU HALVES: Fascination and higher offers track Lincoln Coppers from the baby boomer generation. Eyes are also locked on the bullion sensitive as most are caught up in a flurry of action as they flutter up on the coattails of surging Silver Spot, currently at $18.71 per ounce. Georgia State Quarters are a peachy $24, up again from last report.

MERCURY DIMES: Mercs may not be racing to the moon, yet demand is still outpacing supply in select areas. Not to be left in the shadows, volumes of quality, better Circ examples are also piling up new offers on increased collector interest.

WALKING LIBERTY HALVES: Walkers are striving to put a little more spring in their step. As demand motors on for flashy full Gems within the shor-set, we direct your attention to the commoners which are now claiming a $130 Bid. One well-known east coast dealer is selling a complete set of Walkers, with duplicates, in grades MS64 and MS65, at the Baltimore show via **sealed** Bid auction.

DOLLARS: As Spot Silver settles into new digs, Morgans are becoming an even bigger draw. Hordes of new enthusiasts are anxiously capturing various century old cartwheels for small premiums over their intrinsic value while the more evolved hobbyist is demanding Mint State representatives. DMPLs continue to be the focus of connoisseurs as a swarm accelerates. Peace Dollars are also vigorously flexing their resolve as virtually the entire series has waiting homes at current levels.

PROOF SETS AND MINT SETS: As expected, any Proof Set that has Silver content is being reassessed in this fast-moving market. Yet several other issues like the 1950-1955 Sets are catching the heat right through the 1999S Silver Set, driving home a $275 offer. Mint Sets are coming to life too, as several from the 60's roll higher.

COMMEMORATIVES: For the classic Silver contingent, a bit of pride may finally be showing here. As the series has all but put the brakes on its recent skid, many of these popular issues have begun to attract a fair share of calculating buyers. The golden ensemble has certainly come off life support, and now has Bidders available at current levels.

TYPE: With such a vast field of material to choose from, Type remains the collector's cup of tea. In an effort to brew up some wanted examples, the ever-popular Capped Bust Halves are rising in MS63 and MS64 as the latter savors a $3,450 Bid. Proof Type is stirring too, as most recent advances are steeped with visible buyers with Liberty Seated Dimes inching up in PR64. Obsolete and short-lived Twenty Cent pieces are also making a subtle advance in PR63.

GOLD: Buyers are carefully selecting a crop of new material with the emphasis on problem-free, better Type MS65s. Take a look as some heavy hitters are heard from in a big way. Type II Dollars muscle to $32,500; $3 Princesses claim $18,500 and $5 Indians rake in $18K. From a year ago, the average increase for this trio is nearly 32%. Leading this foray are the tough $10 Libs sans Motto as MS62-MS64 examples each race ahead, with the latter reeling in $27K, over a 46% escalation since Sep-07.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. METAL MADNESS MARCHES ON
BALTIMORE AUCTIONS GAVEL $17.5 MILLION

The Market in Depth

March definitely came in like a lion for the precious metals as they all surged when the market first opened Monday morning. Gold and Platinum broke previous records while Silver jumped above the $20 level. Platinum's newest all-time high is now at $2,267, and Gold climbed near $1,000 when it hit $992 in New York trading. Things changed quickly as some profit taking took its toll on Silver and Gold Tuesday, leaving current Spots at $964 and $19.73, respectively. In spite of this, a strong oil price and a weak U.S. Dollar continue to buoy the metals, and thus the rare coin market.

Many dealers who have returned from the Baltimore show have had little time to rest as the ANA's National Money Show and Heritage auction is right on its heels, March 7-9 in Phoenix. Stack's Rich Uhlrich Baltimore auction brought $8 million February 26-27, while Bowers and Merena's February 2008 Baltimore auction added $9.5 million February 28 thru March 1. We have listed a few highlights. Baltimore was a good show for most, and a terrific show for some. In fact, a couple dealers even reported having their best show ever in Maryland. Selling came easily as super strong prices were being paid for fresh original material, especially those rare coins with exceptional eye appeal. Yet, it was a completely different story for those looking to buy coins. Since high quality specimens have been disappearing at a rapid rate, dealers were finding it quite difficult to find and buy such material. Better date and quality Morgan and Peace Dollars sold at strong levels—not too surprising considering the strength in Silver. One dealer who handles large amounts of bullion related tangibles said that while some dealers and collectors seem to be waiting for even higher levels, he was still able to buy five Circulated bags of junk Silver at the show. Activity remained exceptionally strong for him when he returned home where he found that an additional 4,000 ounces of Silver had been delivered.

1895 Morgan Dollar, Deep Cameo	PCGS PR66 $110,400
1864 $3 Indian Princess, Cameo	NGC PR66 $80,500
1879 $4 Flowing Hair Stella	PCGS PR62 $138,000
1908-S $20 Saint-Gaudens	PCGS MS66 $92,000
1910 $20 Saint-Gaudens, Roman	NGC PR66 $94,300

Laura Sperber announced that Legend Numismatics will once again be entering the auction business, after teaming up with Morphy's Auctions of Denver, Pennsylvania. Their first auction with their new partner, which will feature over $1,000,000 in coins, takes place the first week of May, and is exclusively internet based. The November Coinfest Show in Stamford, CT will be the site of their first *live* auction.

This Week's Market

MERCURY DIMES: Frosty white examples of this popular series are still quite the catch. Where else can the newcomer or expert collector hope to assemble scores of various Choice Mint State obsolete Silver examples for under $10 a pop? Of course the key and semi-key Mercs maintain due diligence as a solid following of buyers remains visible.

WALKING LIBERTY HALVES: With the surge in the white metal, Walker aficionados are discovering it's becoming increasingly difficult to snag an ample supply of those Mint State flashy white players from the short-set. Of course all the commoners in Circ are enjoying an extended elevation. The key early players including those toughies from 1918-1921 are also under pressure as buyers are anxious to procure problem-free specimens in mid grade and up.

DOLLARS: Morgans are continuing to conjure up some early March madness as mountains of Circs through Gems are rising above the rim with the latter now casting a $133 Bid in MS65. This really doesn't come as a shock to anyone as Silver Spot is off to the races with the $20 window open for business. Peace Dollars are also receiving a solid assist in the Circ circle, yet those in Mint State are firm at current levels.

PROOF SETS AND MINT SETS: Patience and some perceived bargains in this often maligned corner may have finally paid some dividends. No Proof Sets are dissenting, and the popular 1950 "baby boomer" issue claims a higher $550 offer, while the 1951 reels in $445. Mint Sets are savoring support too, as the 1970 Set inches up to $14.50.

COMMEMORATIVES: Classic Commems are a study in the tale of two cities. Once again, Classic Silver issues are back to their old mantra. A sturdy following is giving up ground. The only sweet spots are the Booker T. Washington and Washington Carver Sets, as prudent buyers are chasing after as many of these as you care to shake a stick at in Circ and better. Gold Commems remain the focal point as the thermostat is cranked up again for almost the entire series with the emphasis on those golden wonders challenging MS64 and better.

TYPE: Already a raging inferno, savvy buyers are fanning the flames ever higher, confident that another Bidding assault, including some gargantuan advances, will free up much needed material. The lion's share of those under pressure are, not surprisingly, early federal Silver and Liberty Seated denominations. Yet the Copper contingent is spiced with solid fortification too, as Chain Cents rally again, alongside Matte Proof Lincolns and Two Cent pieces. Even Barber Quarters and Halves are grooming some advances.

GOLD: As Gold puts the pedal to the metal, a yellow caution light may be turning on for some. Yet for the moment, quality conscious buyers are looking to round up volumes of better buttery yellow Type as voracious customers just can't get their fill. The popular $3 Princesses have almost made a full rebound as MS65s power to $18,800, and the majestic $10 Indians are bounding ahead in several grades as the not often seen MS67s top $32K.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems): will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

DEALERS DELIGHTED IN THE DESERT
PHOENIX ANA SALE YIELDS $9.7 MILLION

The Market in Depth

It's interesting that the rare coin market in 2008 is able to sustain major shows and auctions back-to-back-to-back. This is truly a testament to the power and vigor of today's demand for coins. The market had every reason to be softer at the American Numismatic Association's National Money Show in Phoenix. Expectations dropped, and a few of the weary east coast dealers just decided to pass on Phoenix altogether. Those who did attend the show in the desert were pleasantly surprised with their wholesale results. Yes, they were still looking to buy that elusive, fresh material as inventories continue to decline, putting even more pressure on price for quality coins. While many dealers weren't able to buy all that they had hoped for, the show was still successful for most, and it did offer further proof that the market for nice quality, original and rare coins remains hot.

Of course, not all coins are realizing top money. Those specimens that fail to live up to today's standards are naturally more plentiful. Buyers are very careful, and that's where added assurances such as a CAC sticker on select NGC and PCGS slabs and a star added to some NGC examples help. While many dealers have enough experience and knowledge to grade these coin themselves, it is always valuable to receive another expert opinion, especially for material outside of one's area of expertise. Also, newbies who can't grade at all, much less distinguish solid-for-the-grade specimens, benefit significantly from quality designations, as does the seller charging a premium. Top grades don't always translate to good value, though. An example of this was observed at the March 6-7 auction by Heritage that realized $9.7 million. The highest priced coin of the auction, A CAC stickered PCGS MS69 High Relief, brought $517,500. This same rarity sold in January 2007 for $546,250. However, strong prices were paid for many exceptional coins, and we have listed a few highlights. Results of the ANA show and auction clearly indicate that current trading is strong even though the precious metals have backed off a bit from their recent highs. Profit taking is a necessary and important part of any bull market, especially one that many analysts believe is headed higher. Most expect continued strength and activity as dealers scramble to improve their depleted inventories and satisfy their customer demands.

R.M. Smythe & Company of New York, established in 1880, was acquired this month by Spinks, a London based, world renowned auction house founded in 1666, resulting in a new entity valued at over $100 million. John Herzog, owner of famed R.M. Smythe for over 40 years, will remain onboard as Chairman Emeritus of Spink USA.

This Week's Market

CENTS THRU HALVES: When hasn't Copper been on fire? Once again, virtually all Lincoln rolls from 1934-1955 are piping hot, catering to a host of activity. Certainly the white metal's escapade hasn't caught the bullion sensitive denominations napping as all are taking a ride on the express lane north.

MERCURY DIMES: Ever popular with collectors, Mercs have undivided interest from buyers as all better dates and commoners in Circ are facing increased demand. Several scarcer Mint State representatives are feeling the heat too, as pure white examples of the 1918D and S, 1920D and 1927S are each prominently featured on buyers' wanted posters in MS64FB.

WALKING LIBERTY HALVES: As buyers busily canvass for high grade dazzlers from the short-set, we note that many dealers are putting feelers out for several of Ms. Walking Liberty's key early entries. Of course the recent upswing in Silver Spot has sent a sea of plus signs through the Circ ranks.

DOLLARS: Silver cartwheels, especially Morgans, are hotter than a blast furnace. In addition to volumes of Circs, some keys are on the upswing feeling the heat as the king of the Carson City contingent, 1889CC, drives home a solid advance to stake claim to a $32K Bid in MS63. Top end MS66 generics are also under pressure riding a $270 offer. DMPLs are fierce with action as no fewer than 55 are reflecting on some powerful escalation. Peace Dollars, although quiet, find buyers consorting for most and offer a token of their Bidding esteem as MS63 generic examples move up a notch to $27.

PROOF SETS AND MINT SETS: Proof Sets remain on the active side and are getting some early spring in their step. Check out the ever desirable 1999S Silver Set as buyers are seeking quantities here at a $285 offer. Mint Sets are sitting this one out as several moderately priced issues reveal minor setbacks.

COMMEMORATIVES: Lafayette Dollars are galloping higher in MS63-66 as the latter takes a solid $1,500 advance to $14,500. Others joining in on this refreshing exercise include the Albany, Maine, 1921 Pilgrim, Stone Mountain, Rhode Island and Texas Type. Buyers are once again detonating a charge under the entire 11-piece ensemble along with the two massive Pan-Pac slugs as the plurality of gains are seen visiting those in MS64 and better.

TYPE: This is the tough ticket that everyone wants to get. Who can blame them as some heavy hitters are seen walloping ginormous Bids. Everything from the coveted 1-year Type 1793 Half Cent in Circ to Draped Bust Small Eagle Dollars in Gem are thundering by nearly 40%, with the latter racing off to a staggering $275K offer. Proof Type reveals an intense playing field too, with visible buyers at present levels as Shield and Liberty Nickels muscle a bit higher.

GOLD: As the yellow metal takes a firmer stand, a wave of newcomers alongside those already bitten by the gold bug are more than willing to test the waters. Of course, as almost always during this amazing record run, Proof, dated and scarcer Gold Type remain top priority. This report, the Type Two elixir is just what the doctor ordered as the amazing Type 2 Dollars in MS65 charge to $33K, and the equally tough Type 2 $20 Libs drive to $31K in MS64.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and 'gem' r[illegible]ften bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. 'gem, full steps' rolls (when available) bring higher pri[illegible]es. In the Mercury series 'ge[illegible] f[illegible] bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or 'put together' bring lower prices. Gem full strike Walking Liberty rolls (particularly the 5-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

$1,000 GOLD — OH SO GRAND
WIDESPREAD INCREASES ENCOMPASS MARKET

The Market in Depth

The world's financial markets are experiencing some of their own March Madness as oil continues to trade at record highs while the U.S. dollar sees lows. The housing market credit crunch woes grew worse as banks and lawmakers ponder their next moves to stave off foreclosures. Also, the Federal Reserve has cut the Federal Funds Rate by ¾ of a point to 2.25% and has created a special lending facility to ease current economic pressure. Gold, the safe haven metal, exploded to a record high of $1,034 early Monday passing the $1,000 per ounce plateau in dynamic fashion. However, inevitable profit taking occurred and it has since backed off from those earlier record setting highs. Bullion's increased volatility hasn't gone unnoticed as the Professional Numismatists Guild has decided to issue a warning in a press release issued to media outlets. They said that buyers and sellers of precious metal coins should avoid "impulse buying" and "uninformed selling."

The volatility and unpredictability of financial markets are important concerns to dealers and collector/investors due to their influence on rare coins. Demand for a wide range of material could be seriously affected if our nation slips into a recession. Yet, dealers tell us that their good customers are still in the market for quality coins, and they have the cash needed to secure some. Selling 6-figure rarities has become a near daily occurrence for some specialists and they say that their clients are anxious to buy even more. Widespread demand appears to be both vibrant and unwavering. This situation is further supported by the soaring prices taking place at public auctions and in wholesale trades at shows on a regular basis.

Many believe that our early coinage, those pre-1834 issues of all denominations, may still offer collectors exceptional value, even though their Bids have been increasing. In several cases, the surge has been rather dramatic as strong demand pushes prices more in line with their true rarity. These rarities also tend to make the highlights following each public sale. They are vigorously contested during auction battles as both collector and dealer fight for choice, and original examples at each grade level. The cry for fresh material definitely falls in their category, and when choice specimens surface, it's not unusual to see record prices paid. Type has also been an exceptional performer in this market. Naturally, early Type is preferred, but attractive and original Liberty Seated and Barber pieces are also highly sought-after. Rare coins that boast a lot of eye appeal while combined with a better than average strike can also realize solid attention from today's discriminating buyers.

March auctions continue as Stack's will host the Dominic Gaziano & Papyrus Way collections in New York City March 26. The Stack's sale is highlighted by a PCGS AU50 1808 $2½ Capped Bust and an NGC PR66 Cameo 1879 $4 Flowing Hair Stella. With upcoming spring shows such as the Santa Clara Expo April 10-13 in California; and the Central States Numismatic Society convention set for April 16-19 in Rosemont, Illinois these sought-after coins should continue to receive the primary focus from eager participants.

This Week's Market

MERCURY DIMES: Mercs are on the move as half a dozen key entries are flexing a bit of muscle Mercury's on the rise in MS65FB include the tough 1917D topping $4,550, the sometimes overlooked 1920S claiming $6,750, and the very scarce 1923S reeling in a $6,050 offer. The latter reports in with a scant 42 representatives in the PCGS/NGC community and only 6 achieving a higher numeric rating.

WALKING LIBERTY HALVES: Walkers are working up a sweat this early spring as higher Bids are blooming for many of this lovely lady's keys in Circ through Gem. A quartet of early players is making the most noise as the proud matriarch, 1921S, thunders along in Very Choice and Gem with the latter at $86K. For those enthusiasts on a more limited budget, commoners from the short-set are getting a solid boost as MS65s take home a $135 Bid.

DOLLARS: For many collectors, Morgans are still the toast of the town. Who can blame them as many of these century old true numismatic coins can be had at a small premium over their intrinsic value. Although some better dated issues are going through a minor adjustment, generic cartwheels are shrugging this off and are motoring higher in several grades as MS65s, roll to $139 Bid. DMPLs are once again pandering to a sea of admirers as a swarm advance. Mint State Peace Dollars are somewhat quiet this session, although most of the series maintains visible support at the assigned levels.

PROOF SETS AND MINT SETS: Proof Sets are keeping active as the popular 1950 entry tops $565. Later issues reveal that increased demand for the 1979S Type II spells a $92 Bid. Mint Sets are getting a little boost too, as the perhaps value laden 1959-1964 Sets are each inching up.

COMMEMORATIVES: Silver Commems are experiencing a bit of déjà vu as most of last week's targets are getting reacquainted with some positive action. Leading this apparent comeback is the Lafayette Dollar, fashioning a quadruple Bid jump this time around as MS65s roll to $8,400. The popular Albany and Maine are also each serving up a pair of gains in Gem and better. The showstopper is the Classic Gold consortium as the ensemble is ablaze with action in higher grades.

TYPE: Once again the ballyhoo centers on most early federal issues in Circ to Gem with some gargantuan offers on the table. Prime example: the elegant and rare Draped Bust Small Eagle Dollars are pounding ahead $70K this report to land on a $345K Gem Bid. Buyers, get the checkbooks ready as Proof pandemonium is also brewing up a storm as we observe a more broad base attempt to extract some quality Proof Type from hiding as a powerful Bidding blitz is underway.

GOLD: Well it finally happened: Gold is not only a four letter word it is also sporting a four digit price tag. As the historic $1,000 Spot price sinks into the buyer's psyche, virtually the entire cast below is moving up a rung. Yet now more than ever the quality of coins (especially those in higher grades) at these levels must be absolute. Spreads between sight-seen quality and sight-unseen material are continuing to widen here.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

1960 DID SM/LG DATE 1C VP-001

VARIETY DIAGNOSTICS
Hubbed first with a large date design, then hubbed again with a small date design. Doubling mostly on the inside of date especially on "960." MORE>

COMMENTS
This is a very strong variety that continues to gain in popularity. Its popularity will likely be maintained as the only mint state overdate known for the 1960 cents.

The Market in Depth

Believe it or not, we have already completed one quarter of 2008, and the powerful bull rare coin market remains in place. The evidence is everywhere. Just look at MS65 Gold Type and Peace Dollars. Check out the 14 percent jump (in only 3 months) for MS65 $10 Indians from $5,750 to $6,550 Bid, or the 5-10 percent gains among several MS65 Peace Dollars. Precious metal strength has helped by providing many generic coins with greater intrinsic value and thus higher Bids. This hasn't come without volatility, though, as Gold is down $83 from last week, and Silver has dropped over 15% in the same time frame. In any case, the extraordinary demand for the genuinely rare or scarce dates of many series has been the object of particularly powerful offers, keeping the coin market solid across-the-board, from the most generic to the rarest of the rare. Competition for these in-demand, high quality rarities is keen, and a mistake can prove very costly. In many segments of the market, even a one point difference on the grading scale can have serious cost ramifications. For example, a generic 1924 $20 Saint-Gaudens in MS67 may be a big leap for someone that would be well satisfied with an incredibly attractive Gem MS66 example at less than half the cost. The problem for today's buyers is mainly a value decision. They, with the assistance of their dealer, need to agree on the value of each rarity they seek. Armed with population statistics, current wholesale Bid and past price performances, collectors hope to make and educated choice.

When is it the right time to buy? Low interest rates, lackluster stocks, and a soft real estate market combined with a weak U.S. Dollar make the purchase of rarities especially attractive today. This is one reason why we continue to see many original, problem-free rarities realizing new world record prices at public auction. Select specimens are being taken off the market, sometimes for many years, and the number of fresh coins available is shrinking. Consequently, one must strike while the iron's hot.

Recent increased activity for High Relief Saints may well be the result of savvy dealer foresight preparing for promotional sales next year. One dealer in particular is looking to buy six specimens in MS64-MS66. The U.S. Mint will soon recreate the Ultra-High Relief, considered by many to be the most beautiful of designs, in 24 karat Gold. This version will include the Motto, *In God We Trust* along with the 2009 date in Roman numerals.

April is expected to be extremely active, beginning with most dealers heading west to attend the Santa Clara Expo in California, April 10-13. Superior will host the Elite Coin Auction April 10. Next, the collector-rich Chicago area will entertain the Central States Numismatic Society convention in Rosemont, Illinois, April 16-19. Two public auctions will take place: Bowers and Merena will offer the 2008 Chicago Rarities Sale on April 14, and Heritage will host the CSNS Rosemont Signature Sale April 16-19.

This Week's Market

CENTS THRU HALVES: Early Lincolns from 1944-1955 are once again on the hit parade as these varied baby boomer rolls spring ahead. Of course as the white metal reels back, all the bullion sensitive denominations must go with the flow as each drifts a bit lower.

MERCURY DIMES: It seems like each installment we observe a more rounded base of support expanding to include a growing audience for most of this popular series in Circ. Yet Mercs also hold tight to recent advances for the key players in Mint State, and demand for the icy white Gem commoners exhibiting fully rounded bands remain a fascination to many.

WALKING LIBERTY HALVES: Walkers retain visual vitality and moderate rejuvenescence in their stride as some heavy hitters like the 1919-1928 are pressured further in XF and better. The short-set caters to excitement too, as the generic members of the clan are desired in volume at $135 for MS65s.

DOLLARS: As the Silver streak stutters, buyers have eased up on the throttle for the generic multitude in most Circ grades. A few better dated Morgans have also seen fit to subtle adjusting. Nonetheless, common MS66s move up to $280, and a pair of late San Francisco keys, 1903 and 1904, keep things on track, displaying elevated offers in MS65 at $8,500 and $8,000 respectively. Peace Dollars face a similar refrain as commoners in Circ and a few better entries roll back down the trail a bit.

PROOF SETS AND MINT SETS: As the popular 1958 Proof Set claims a higher $43 offer, this often overlooked section is beginning to attract a more willing paying audience at current levels. Mint Sets too, are a font of growing demand as the 2002 issue takes home a $12.75 Bid.

COMMEMORATIVES: Classic Silver Commems are coming to life this early spring as a smattering in Circ and better are sprouting some new interest. Several have taken full bloom in MS66: the Lafayette proudly gallops to $15K; the California Jubilee pans out at $1,200, and the 1923 Monroe Doctrine sets policy at $4,500. The Classic Gold entourage maintain visible fire in Very Choice and better as the Round version Pan-Pac slug roars ahead by $15K in MS66.

TYPE: With intensity and big bucks to reel them in, the always in demand one year Type 1793 Half Cents roll ahead in Circ through MS60BN as the latter claims $41K. Large Capped Bust Quarters jump to $24K in MS65. Check out the several Liberty Seated Half varieties feeling the Bidding heat in MS65. Topping off this discerning action are forceful advances tackling Flowing Hair and Draped Bust Small Eagle Dollars as these early federal beauties duke it out for bragging rights in Choice and better.

GOLD: The inevitable profit taking courtesy of the bullion viper has, for the moment, given pause to the golden jet's streak. Certainly buyers are exercising caution during these volatile moments yet even in the midst of this market turmoil, scarcer Gold Type maintains an upbeat tempo. Popular $3 Princesses cavort to $19K in Gem, and the phenomenal Saint-Gaudens High Reliefs cater to accelerated demand as glorious MS65s top $44K.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

MARKET SOARS AS METALS PLUMMET
PCGS COUNTERFEIT SLABS IDENTIFIED

The Market in Depth

We begin the second quarter of the year with cautious optimism. Gold, Silver and Platinum have been strong, but quite volatile since January, and Spots have dropped significantly from recent peaks. So, collectors and dealers are wondering what's next. Will Gold drop down to $700, or will it rise up above $1,000 again, or even $1,500? Will Silver and Platinum regain their lofty levels of less than a month ago, or collapse? Large swings in either direction are clearly not unheard of lately. Only time will tell. What is clear today is that coin prices are simply continuing to climb. From the rarest, to the most common, Bids are rising in multiple grades, as the hundreds of plus signs in this issue demonstrate. The rarities in such strong demand include Bust and Seated material of all denominations in virtually all grades. Check out the $55,000 Bid for 1795 Flowing Hair Dollars in MS60, representing a 38 percent gain since the beginning of January. As for the commoners, look at the increases achieved by generic Morgan Dollars in MS64-66. This area remains white hot as dealers just can't get enough of these cartwheels. Though over two million specimens have been graded by PCGS and NGC, supplies are still low, and dealers are raising their Bids in an attempt to flush some out. One market maker who specializes in Morgans said he's getting orders for 500-1,000 examples at time on a regular basis from dealers and collectors/investors.

Of course, it's not all rosy out there when Gold drops from over a grand an ounce to the eight hundreds. Such volatility can cause problems. One dealer lamented the loss of $250K in sales from 13 customers reneging over a period of just a few days. Also, greed can tempt the unscrupulous, who knowingly sell fake Gold bullion coins to unsuspecting dealers caught off guard, who are often too busy to check for authenticity. In addition to the above-mentioned issues, PCGS has become the latest victim of the ongoing slab counterfeiting from China. This bogus material has recently been found for sale on eBay. Sound familiar? Indeed, the same problem plagued NGC in January, prompting a slab redesign that is still in the works. And, as with NGC, the PCGS fakes have accurate certification numbers which can be verified on the grading service's website. The coins in these impostor holders are also counterfeits, ranging from poor-quality to those that are very well-made. Some examples identified include the 1858-O Liberty Seated Half Dollar, the 1800 Draped Bust Dollar, and the 1795 Off-Center Draped Bust Dollar. Diagnostics have yet to be provided, though PCGS urges customers to avoid buying from sellers in China.

First up this month for dealers and show traveling collectors is the Santa Clara Expo and Superior auction, April 10-13 in California. This show draws from a wealthy area that enjoys culture, the arts and of course, rare coins. Expectations for the action in April are favorable as dealers expect strong Bids to be tendered for nice quality examples in almost any denomination and grade.

Morgan Dollars	1/4/08 Bid	4/4/08 Bid	% Change

This Week's Market

MERCURY DIMES: Collectors' demands are certainly being heard for Ms. Winged Liberty, as buyers attempt to scrounge up quality Circ semi-key examples, seen escalating again. Dealers are also on the prowl for select frosty white, no-question, Full Band offerings as calls go out for the 1918D-S in MS64FB.

WALKING LIBERTY HALVES: Although action is hot and heavy for those key issues from 1916-1923 grading AU-MS63, Walker aficionados' strong passion for the short-set is obvious. Once more, these later members curry continued admiration as a trio of better dates show some pop, with the unheralded 1944S rolling to $440 in Gem.

DOLLARS: When it comes to Morgan mania, there's no fooling around here as serious action is devouring this series. Generic specimens grading MS63-MS66 are under concerted pressure and rallying ever higher. For those keeping track, MS65 commoners, now Bid at $145, have advanced 21% since the first of the year, and the MS66 clan have powered ahead by nearly 30%. Yet the impressive accomplishment doesn't stop there as a plethora of scarce and desirable entries, primarily grading Very Choice and better, are also under siege as a charge has been detonated under a host of 4- and 5-figure collector faves. Peace Dollars are also making a racket as nearly the entire squad is on the move in Very Choice and better too, as a trio of key San Francisco entries is breaking the silence big time. Leading the charge are the 1925S and 1928S, each powering to $18,500 in Gem, and the tougher 1934S claiming $17,500 in MS66.

PROOF SETS AND MINT SETS: Early Proof Sets (1936-1952), as almost always, maintain a solid standing with buyers at advertised Bid levels. Unfortunately, sundry later installments have adjourned to lower levels. Mint Sets too, are looking for a little spark this spring as several post 1970 offerings have lost their flavor as they modestly drift back.

COMMEMORATIVES: The popular 1921 Missouri Centennial issues are both on the move in Gem, and the regular issue, without 2x4, claims $7,600 in MS66. The long dormant Columbia, S.C. Type are also awakening in MS65 and MS66 as the latter rolls to $285. Classic Gold needs no introduction to buyers as they are lined up for the entire series, including the $50 Slugs, in MS64 and better.

TYPE: Once again, prime real estate within the Type market is engulfed with frenzied buyers. Early Copper rarity, 1793 Wreath Cents, roll across the board as MS60BN specimens top $27K. Captivating and challenging Draped Bust Small Eagle Dimes surge in Choice through Gem as the latter rakes in a $74K offer. The tough and very popular Draped Bust Heraldic Quarters follow in their little sister's footsteps as those grading MS63-MS65 roar; the latter captures over a 25% gain towering to $60K. Proof Type shines as Barber Quarters and Halves are on the move in Gem and the popular Morgan Dollars take a hike requiring $5,800 in PR65.

GOLD: Continued profit taking and a temporary glut of surplus Gold on the world market has buyers on their mettle as the yellow metal dips below $900. Although minor adjustments have been necessitated to the bullion sensitive, most better Gold Type is still glowing, led by the tough to find Type II Gold Dollars as MS65s spike up $1,000 to $34K Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally: they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions: you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, ICG, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numhers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues hecause they are handled more carefully when minted; therefore, they are all usually high grades

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May he the worst possible example, shows no wear or damage. Will he hagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, hut it should not he so dark as to hide any prohlems); will have minor hagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

COINS WEATHER ECONOMIC STORM
CENTRAL STATES POISED TO FILL DEMAND

The Market in Depth

Given all the financial problems facing the world today, one segment of the economy continues to perform quite well. Rare coins have emerged as one of the premier collectibles of choice, leaving stamps, sports cards and beanie babies far in the distance. Naturally, the historical connections our coins embody is one important aspect of collector interest; another is intrinsic value, and a third is rarity. Collectors appreciate rarity especially, and desire to own coins that were struck in limited quantities. As a subcategory, condition rarities, such as the 1892S Morgan Dollar, also keep collectors enthused. There is also the joy and sense of accomplishment felt upon completing a set, as well as the excitement of seeing one's collection increase in value over time. Considering how much coin collecting has to offer, it's no wonder this hobby stands above many others, and remains so robust even in times of economic upheaval.

Today's buyers are at least as passionate as any from the past, and are quite possibly the most demanding of all time, having access to the greatest amount of information. Therefore, premium quality coins are a must. Those specimens that obtain a CAC sticker or other official demarcation of quality are in especially high demand. In fact, CAC has been flooded with dealer submissions, so a cut-off date for membership applications has been set for May first of this year. The desire to keep quality up and turnaround time down is the goal. The former has not come without some difficulty for the nascent enterprise, though already having bought back fifteen stickered coins is clearly a sign of good faith and an example of some understandable growing pains. Applications for membership may be accepted again as early as January of 2009.

While only PCGS and NGC slabs are currently considered for CAC stickers, PCI may be next. Actually, PCI is now Dominion Grading Service, or DGS, and the changes planned by the new owner, John Feigenbaum, may very well lead to acceptance by CAC. In particular, the revamped grading service will develop a population report available online, and include in this report images of each $100 plus coin. This adds a valuable level of insurance against counterfeits which have recently plagued PCGS, NGC and ANACS. In addition, coins with problems will not be net graded, but rather will have their flaws described on the slab in addition to the grade.

Santa Clara, California is in the numismatic spotlight as dealers and collectors converge at this all important show. Next up is PNG Day, the CSNS Convention and Heritage Auction in Rosemont, Illinois, beginning April 16. Just prior to the CSNS, Bowers & Merena will host their April 15 Chicago Rarities Sale. We have listed some previews from both auctions herein.

This Week's Market

CENTS THRU HALVES: Buyers are still desperate to finagle a supply of early Copper rolls in anticipation of the redesigned Lincoln Cent for 2009 which is just around the corner. With Spot Silver on the rebound, the bullion sensitive denominations are rejoicing as all are getting a modest boost

MERCURY DIMES: Anxious buyers are lining up for keys and semi-keys, seen making a dash for better dates in Circ with some premiums tendered for those well stuck frosty white Mint Staters.

WALKING LIBERTY HALVES: Walkers remain upbeat, holding on to all of their recent advances. There is just no letup for those charismatic 20 coins from the short-set which encompass all the nostalgic circulating WWII and post war entries in MS63-MS65.

DOLLARS: Morgan mayhem is back as volumes of generic Mint State cartwheels are being scarfed up faster than sliced gherkins at a New York deli. Demand has also escalated for select better dates as a tougher New Orleans quartet spices up the action with solid advances tackling the 1889, 1890, 1891 and 1892 MS65. The hard to come by when fully struck, 1891 Philly entry, also packs a wallop as Gems race to $5,500 Bid. DMPLs don't disappoint as over 4 dozen mirrors advance. Peace Dollar trump up again as a San Francisco trio including 1923, 1924 and 1925 are making music in MS65 as the latter takes center stage with a $20K offer.

PROOF SETS AND MINT SETS: The majority of modern Proof Sets have remained silent on the Bidding front waiting for a spark to ignite. Although still quiet, supporting Bids are now firming up, visually surrounding most of these later issues. The same holds true for Mint Sets of the newer generation as the 2002 Set notches up to $13.25 Bid.

COMMEMORATIVES: Selective increases are finally propping up these appealing and historic issues as the 1900 Lafayette leads the comeback rolling to an impressive $15,500 Bid in MS66. Classic Gold retains the Midas factor as the key to the 11-piece ensemble, the 1905 Lewis & Clark, travels to $16,250 in Gem. The massive, always in demand and the only U.S. coin minted in octagonal format, the 1915S Pan-Pac slug is under pressure again in MS63 as a $70,500 Bid attempts to snare one.

TYPE: Talk about action, this is the epicenter, as voracious buyers are out in force looking to reel in eye appealing, fresh Type material to satisfy the hordes of ravenous collectors. The varied smorgasbord of Type on the rise includes another calculating Bidding blitz targeting Flowing, Draped and Capped Bust Silver in Circ through MS65. The Proof Type palette favors Silver too, as Ms. Liberty Seated in all denominations dominates the Bidding frenzy.

GOLD: The yellow metals' support has strengthened since our last report as the golden express attempts to get back on track. Certainly dealers as well as the collecting public are necessarily on the cautious side before they get onboard. Double Eagles are the first passengers as Circs through Gem advance with Saints getting ticketed at $1,685 in MS65.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, ICG, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

SANTA CLARA SHINES WITH FRESH MATERIAL
OPTIMISM HIGH AS CSNS IS UNDERWAY

The Market in Depth

Trading taking place on the bourse at Santa Clara found active buyers looking to capture the treasures they so desperately needed to find in the Golden State. Several fresh collections have surfaced lately, like the Roswell amassment, and one multi-million group of mostly early Gold which hit the California bourse. The majority of these pieces sold wholesale before the show was open to the public, as is often the case when better material is available. Rare date early Gold is in exceptional demand, and this lot was from a collection residing in old PCGS holders. Such holders offer some interesting characteristics, including the high probably that the coin inside was conservatively graded, and not tampered with for as long as two decades. A few examples include a 1797 $10 Capped Bust Heraldic Eagle in a PCGS XF40 green holder, an 1800 $5 Capped Bust PCGS AU50, in a first generation holder, and an 1836 Gobrecht Dollar, restrike, Judd 60, in an older NGC AU55 slab. Generally speaking, anything that was original or above average in luster, strike, or color received strong interest at the show. From the outset it was clear that dealers and collectors in attendance were there to Bid aggressively for rare coins that exemplified superior quality. The market for premium quality material is powerful, and while dealers do believe that the attendance wasn't quite as good as usual, the show didn't lack strong demand. Dealers have been encouraged that this demand has been so steady for the past several years, and has been something they could count on. It doesn't matter that the country is facing a possible recession—these buyers know what they want, and they will not be denied.

There is no mystery as to what collectors desire these days; the only puzzle to solve is where to find this material. Locating what the increasingly picky collectors demand makes for quite a challenge for dealers, who must pound the bourse at as many shows as possible to have a chance at filling want lists. Such an opportunity is taking place now with the Central States Numismatic Society's meeting and auctions in Illinois. Due to its excellent collector location, most dealers anticipate a good show. One well-known dealer is in the windy city offering yet another fresh collection via sealed Bid. This one, in addition to a group of Barber Halves, consists of PQ Gold coins, mostly in old holders, nearly all of which bear the CAC seal of approval. Of particular note, seven of these coins have gained the coveted *Gold* CAC sticker, a very rare designation indeed. Gold stickers are reserved for those coins that, according to CAC experts, are undergraded by at least one full grade.

The Santa Clara Elite Coin Auction by Superior realized $945,000 April 10. A few of the many highlights from this sale include an 1889-CC Morgan Dollar, graded by ANACS as MS62 and selling for $20,700; a 1921 Morgan Dollar, Zerbe Proof, graded NGC PR65, which sold for $14,950; an 1803 $10 Capped Bust, Sm. Rev., Stars, grading AU55 by NGC, capturing $21,275; and a 1907 $20 Saint-Gaudens, H.R., Flat Rim NGC MS64, which pulled in $35,075.

This Week's Market

MERCURY DIMES: Most demand, not surprisingly, is targeting the keys, like the 1916D and both 1921 installments in hard to find, problem-free Circ through frosty white Gems. Not withstanding this tough enterprise, volumes of Full Banded commoners remain under the gun with visible buyers in place.

WALKING LIBERTY HALVES: Early and middle dates of this proud lineup continue to hold their own. The short-set, though still in demand, does show a trifle bit of weakening at present levels in Gem as a pair from the 1940s eases back with minor adjustments.

DOLLARS: A horde of anxious buyers are visible as most prime time players in Very Choice and better rally behind some thundering Bids. The MVP of this series, the 1893S, racks up a tremendous $75K gain in MS65, powering ahead to a $485K offer. PCGS/NGC population reports show a mere 7 examples, and but 3 are designated in loftier levels. Peace Dollars are running full bore too, with MS64s and better climbing impressively as the key Philly issue, the 1928, drives to $15,300 in MS66 while the San Francisco elite 1925S rolls to $20,500 in Gem.

PROOF SETS AND MINT SETS: Select Proof installments are picking up the slack as the popular 1950 and 1951 issues claim $590 and $465, respectively. Always in demand, the inaugural State Quarters 1999 Silver Sets roar to $310. Mint Sets are still in need of a little flavor enhancement as most are content with the status quo.

COMMEMORATIVES: Classic Silver has not yet turned the corner, though a smattering of supporting Bids are present. Classic Gold gleams once again as the 1905 Lewis & Clark discovers an elevated $16,500 Bid for tough to find MS65s.

TYPE: Dealers and the collecting fraternity are setting up camp and converging here as ever dwindling supplies make Type a hotbed for some powerful Bids. Attempting to pry away any quality offerings, Draped Bust Small Eagle Dimes stage an uprising as they rev it up and take the checkered flag with MS65s vaulting to $78K Bid. Liberty Seated No Motto Quarters are getting a solid boost in PR63-65 as the latter climbs to $4,700. Liberty Seated Halves With Arrows steam ahead in the same columns as dazzling Gem Proofs reel in $10,500.

GOLD: Most of the easier to come by Gold Type in Choice and better has a bit of the jitters with modest rollbacks in control as buyers ease up for the moment. That's not to say its all bad news; after all, it is Gold. $2½ Indians are moving up a notch in MS63 to $800, and $5 Libs With Motto take $840 in like grade. Substantial muscle is still flexing in ultra grade too, as majestic High Relief Saints top $156K in MS67.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

In addition to its world-class conservation service, NCS provides comprehensive certification services for coins with irreversible detrimental surface conditions (commonly known as "problem" or "no-grade" coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine, or given a Detail's grade.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

NCS coins are approved to be listed as certified on eBay.
